SAN ANTONIO, Oct. 24, 2013

InGenesis Identified as One of the Top Job-Creating Private Companies in the U.S.

SAN ANTONIO, Oct. 24, 2013 /PRNewswire-USNewswire/ -- InGenesis, one of the nation's largest and fastest growing privately owned staffing and workforce solutions firms, has been honored as one of the nation's top job creators by the 2013 Inc. Hire Power Awards.

The Hire Power Awards recognizes companies for their leadership in creating American jobs. In honor of its achievement, InGenesis will be featured in the November issue of Inc. magazine and in a special online section describing the 2013 Hire Power winners.

"It's an honor for InGenesis to be recognized as the top private business job creator in the health industry in my home state and second largest in the entire United States," InGenesis CEO Veronica Muzquiz Edwards said. "InGenesis has grown dramatically since we opened for business in 1998, and we now have more than 1,600 employees."

"Our success confirms the powerful positive impact of showing respect and personalized attention to our employees," Edwards continued. "We believe that talent takes center stage and that our workforce is the foundation of our growth and innovation."

Launched in 2012, the Hire Power Awards ranks for-profit and nonprofit companies by how many new jobs they've added over the past 18 months. The awards celebrate private companies on the forefront of American job creation, and highlight the crucial role private businesses play bolstering the country's economic vitality. InGenesis will join Inc. and other winners at an awards ceremony in San Francisco on November 12.

Inc. isn't alone in recognizing InGenesis for its remarkable growth. InGenesis was named the fastest-growing medical staffing firm and second fastest-growing staffing firm in the U.S. by Staffing Industry Analysts.
